The **Android HTML, CSS, and JavaScript Editor Guide Document** is a detailed instruction manual that makes it simple for you to use, explore, and comprehend this project.

Regardless of your level of experience, reviewing or altering in this project is fairly simple if you have a basic understanding of HTML, CSS, and JavaScript programming language.

The following six sections, portions, pages are part of this project:

1. HTML editor.
2. CSS editor.
3. JavaScript editor.
4. Editors Toggle.
5. Menu-Bar.
6. Output.

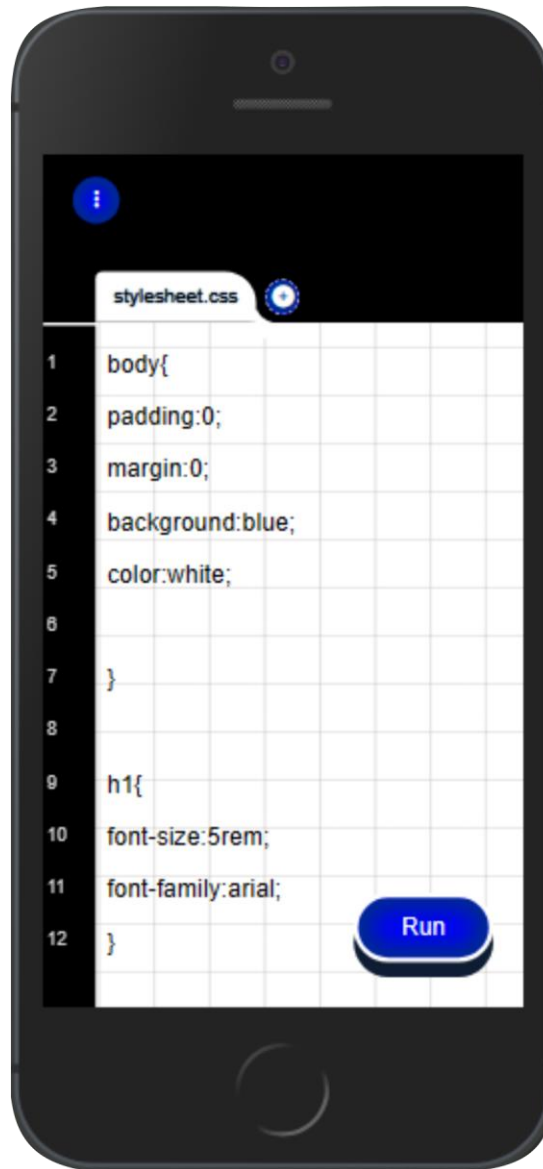

Let's give each one a visual introduction.

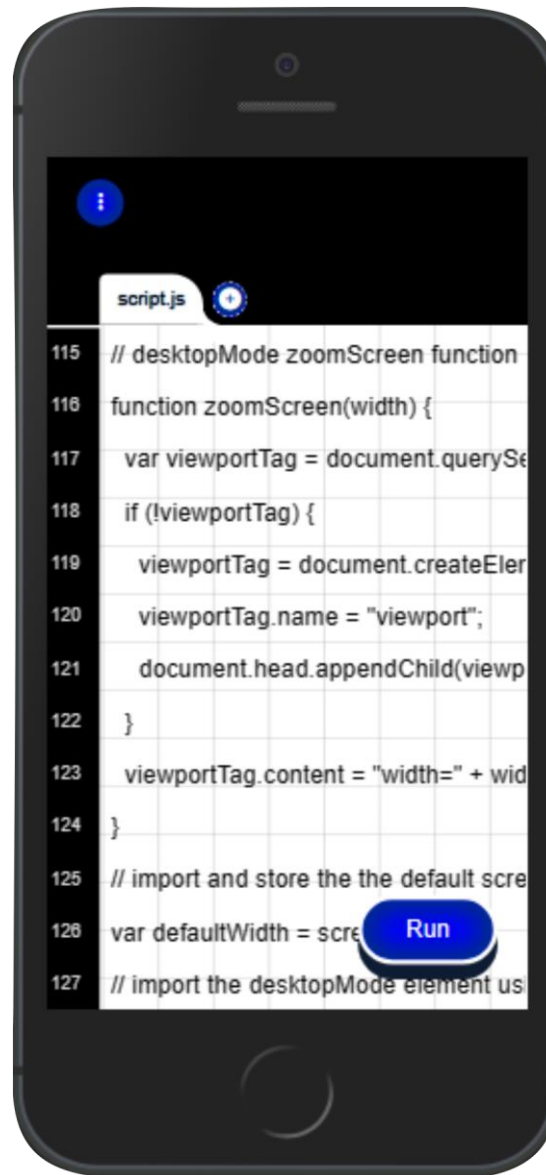

1. **HTML Editor** Part, which allows you to type HTML codes, including CSS and JavaScript, if you are an experienced developer.

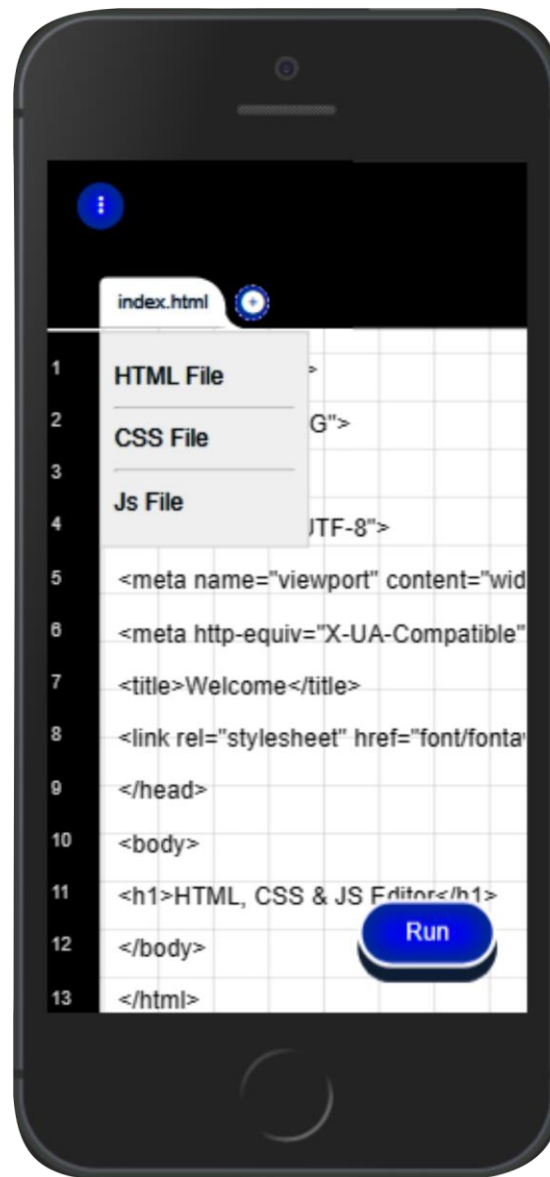

2. **CSS Editor** Part, that allows you to type only CSS codes.

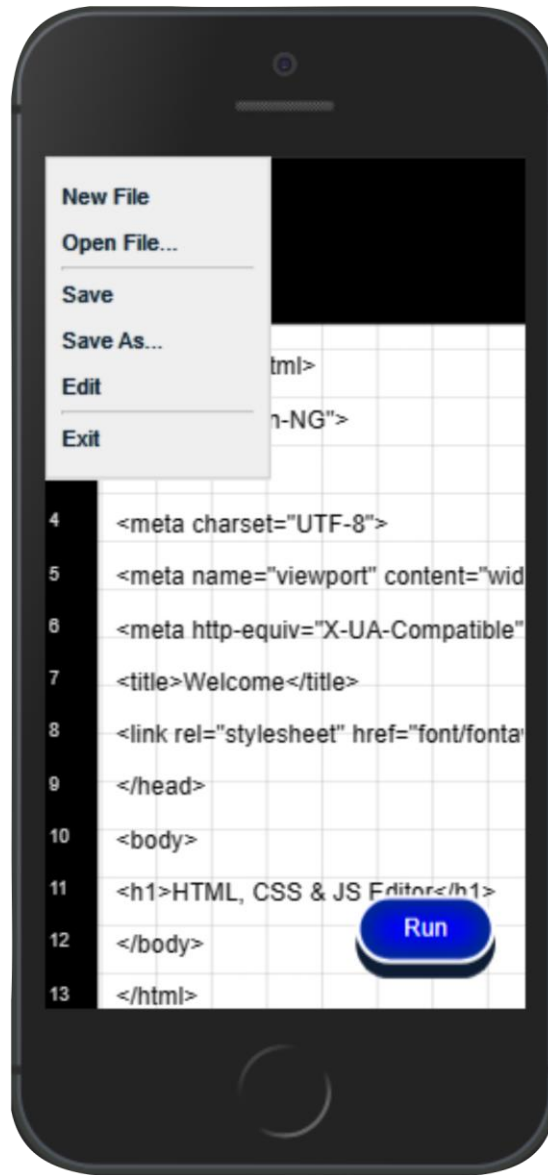

3. **JavaScript Editor** Part, that allows you to type only JavaScript codes.

4. **Editors Toggle** part, which allows users to switch, toggle between editors (Html, Css, or JavaScript) files.

5. **Menu-Bar** Part that allows you to import, export, and edit codes easily, as well as save codes to browser local storage.

6. **Output** part, which displays the results of your typing, also features a left-side back button and a right-side option to refresh the page, much like if you had clicked on an inactive link and seen a blank page instead.
